

A formulary or medical exception request is needed when the prescriber is requesting coverage for a non-formulary medication. Exception requests and prior authorization requests should be submitted using the same form—the Medicare Prescription Drug Coverage Determination Form.

FORM COMPLETION TIPS

- **To receive coverage for a prescription, a medical exception request may need to be submitted. This form can be accessed through the associated insurance provider**
- **This guide should be used by the insurance plan or Medicare enrollee, the enrollee's representative, or the enrollee's prescriber to help ensure the form is filled out completely and accurately**
- **Note, this is the standard CMS (Centers for Medicare & Medicaid Services) form that may be used by some insurance plans. Others may use a custom one, but it will likely be similar to this one**

The name of the Medicare enrollee, in addition to their date of birth, address, phone number, and Medicare member ID #, are all required to complete the request.

If you are the enrollee's representative, not the enrollee or prescriber, fill out the Requestor's section with your information. Proof of authorization to represent the enrollee is required.

In the box, include the prescription drug name and the dose given to the enrollee.

The type of Coverage Determination Request required is dependent on unique circumstances. Mark the box that accurately describes the request.

A fast (expedited) decision can be requested if the enrollee or the prescriber feel that the enrollee's health could be seriously harmed by waiting the standard timeline for appeal decisions.

*NOTE: If you are asking for a formulary or tiering exception, your prescriber MUST provide a statement supporting your request. Requests that are subject to prior authorization (or any other utilization management requirement), may require supporting information. Your prescriber may use the attached "Supporting Information for an Exception Request or Prior Authorization" to support your request.
Additional information we should consider (attach any supporting documents):

Important Note: Expedited Decisions
If you or your prescriber believe that waiting 72 hours for a standard decision could seriously harm your life, health, or ability to regain maximum function, you can ask for an expedited (fast) decision. If your prescriber indicates that waiting 72 hours could seriously harm your health, we will automatically give you a decision within 24 hours. If you do not obtain your prescriber's support for an expedited request, we will decide if your case requires a fast decision. You cannot request an expedited coverage determination if you are asking us to pay you back for a drug you already received.
<input type="checkbox"/> CHECK THIS BOX IF YOU BELIEVE YOU NEED A DECISION WITHIN 24 HOURS (if you have a supporting statement from your prescriber, attach it to this request).
